Subject: Request for Vote/Approval

Dear EPCC Members,

Lee Langub, EECE, has requested an emergency digital vote from us.

She stated that UPCC asked her to put forth another proposal in order to get the MATH courses changed to MAED in order to be discussed at the 3/22 meeting. 3/22 is the date of our next formal meeting, which means the proposal will miss UPCC. The proposal has gone through the EECE curriculum committee and is currently in our queue under Elementary Education B.S.

As a result, Lee has asked if the EPCC would be willing to vote to approve this proposal via email. This type of voting is limited to extenuating circumstances and I think this qualifies. I have reviewed it in Curriculog and it appears to be a response to a technical request from UPCC, **I vote to approve.**

3/12/2018

Re: Request for Vote/Approval - Arvin Johnson

Summary of Changes from Curriculog: "Change of course names - MATH 3316 and 3317 to MAED 3316 and 3317 necessitated change in program proposal. Please note that a previous change in program proposal was submitted and approved during this academic year. Any information about the program for the catalog should come from that change form with the exception of these 2 course names."

I hope I have adequately explained the situation. Please let me know your thoughts on this issue.

You may review it in Curriculog. If you are willing to vote, please copy all so we can calculate votes; if you are opposed to this process, please indicate that as well.

Cc: Arlinda Eaton <aeaton4@kennesaw.edu>; Lee Langub <llangub@kennesaw.edu>;

Dear EPCC,

Thanks for the swift votes.

10 EPCC members voted to approve the course name changes included in the Elementary Education BS proposal. At this point, the proposal will move on to Dean Eaton for approval. I will merge the email responses into one PDF as minutes.

Thanks again!

Arvin

Arvin

curriculum proposal request

Lee Langub

Fri 3/9/2018 8:48 AM

To: Arvin Johnson <ajohn560@kennesaw.edu>;

Hi Arvin,

UPCC came back to me and asked me to put forth another proposal in order to get the MATH courses changed to MAED – and said they needed that proposal in order to discuss MAED courses at the 3/22 meeting.

The proposal had gone through curriculum committee and chair and should be in your queue. Is there any way that can be voted on via email by EPCC so it can keep going up the chain? I would have put through this particular proposal if I had thought it necessary in the first place, but that's another story ☺. It is truly procedural at best – changing the courses in the program of study as well.

I appreciate your consideration of my request.

Best,

Lee

Subject: Request for Vote/Approval

Sensitivity: Confidential

Dear EPCC Members,

Lee Langub, EECE, has requested an emergency digital vote from us.

She stated that UPCC asked her to put forth another proposal in order to get the MATH courses changed to MAED in order to be discussed at the 3/22 meeting. 3/22 is the date of our next formal meeting, which means the

proposal will miss UPCC. The proposal has gone through the EECE curriculum committee and is currently in our queue under Elementary Education B.S.

As a result, Lee has asked if the EPCC would be willing to vote to approve this proposal via email. This type of voting is limited to extenuating circumstances and I think this qualifies. I have reviewed it in Curriculog and it appears to be a response to a technical request from UPCC, **I vote to approve.**

Summary of Changes from Curriculog: "Change of course names - MATH 3316 and 3317 to MAED 3316 and 3317 necessitated change in program proposal. Please note that a previous change in program proposal was submitted and approved during this academic year. Any information about the program for the catalog should come from that change form with the exception of these 2 course names."

I hope I have adequately explained the situation. Please let me know your thoughts on this issue.

You may review it in Curriculog. If you are willing to vote, please copy all so we can calculate votes; if you are opposed to this process, please indicate that as well.
