

Georgia Educator Ethics Assessment

What is the Georgia Educator Ethics assessment?

The Georgia Educator Ethics assessment is a training and assessment program composed of a series of modules that combine instruction and testing. The goal of the assessment is to help educators become familiar with, understand, and apply the Georgia Code of Ethics for Educators, as well as comprehend and embrace the principles of ethical decision making in an educational context.

The Georgia Educator Ethics assessment will initially be offered at two levels:

- Georgia Educator Ethics – Program Entry (350) (available September 2014)
- Georgia Educator Ethics – Program Exit (360) (available January 2015)

The assessment is comprised of seven interactive modules. The modules focus on professionalism in education — in teachers' relationships with their students, their schools, and their communities — as well as on ethical understanding to guide decision making, and the specific regulations and expectations that educators face in Georgia.

How is this assessment different from other GACE assessments?

This assessment is coupled with an embedded training program that offers a “learn by doing” approach around true-to-life scenarios, including actions, dispositions, and values. Designed not only to reinforce ethical standards or “code,” this tool also allows you to navigate through “real life” scenarios, deepening your understanding of obligations and situations to clarify how to avoid risk. Learning modules in the assessment are followed by end-of-module tests related to what you’ve learned in the modules.
